

Eastern News

Thursday 19th September

Throughout the school year there are always plenty of positives; when everyone feels things are going well, usually when a child learns something new, or a kind word to or from a parent or carer! The more we can work together, the better the school experience will be for your child. However, there are times when we are all faced with a problem - it is important to continue to work together as a school community.

Sometimes a rule may seem silly or pointless, but we must assure you that all of our school rules are there to ensure the children and staff are safe and secure at all times. Thank you for your continued support.

Helping your child at home

There are a few simple ways of helping your child through school; Please try to support your child's learning and give them the very best start in school... By simply reading with them as much as possible; and encouraging them to log onto HWB and SUMDOG (passwords will be sent home very soon), you will be making a big difference to their learning.

School Development Plan

This year, our school improvement targets are;

- To help children improve their understanding of what they are reading and answer comprehension questions,
- To ensure all children are able to write neatly and present their work as nicely as possible,
- To help children improve their spelling
- To help children improve their understanding of times tables and number facts,
- To help children use their number skills in lots of real life contexts,
- To improve children's confidence in reading, writing and speaking Welsh.

If you would like to see a more detailed copy of the School Development Plans, you can call into the school office, or check on the school website.

We will let you know how we are doing! Keep an eye out for information about your child's reading age at the end of the term.

Safety online

There have been a number of incidents in the news recently all about being safe online. Please make sure that your children are safe on their computers and games stations - check out <https://www.nspcc.org.uk/preventing-abuse/keeping-children-safe/online-safety/parental-controls/> for help and advice.

Have a good weekend everyone!
